Reports, Reports, Reports

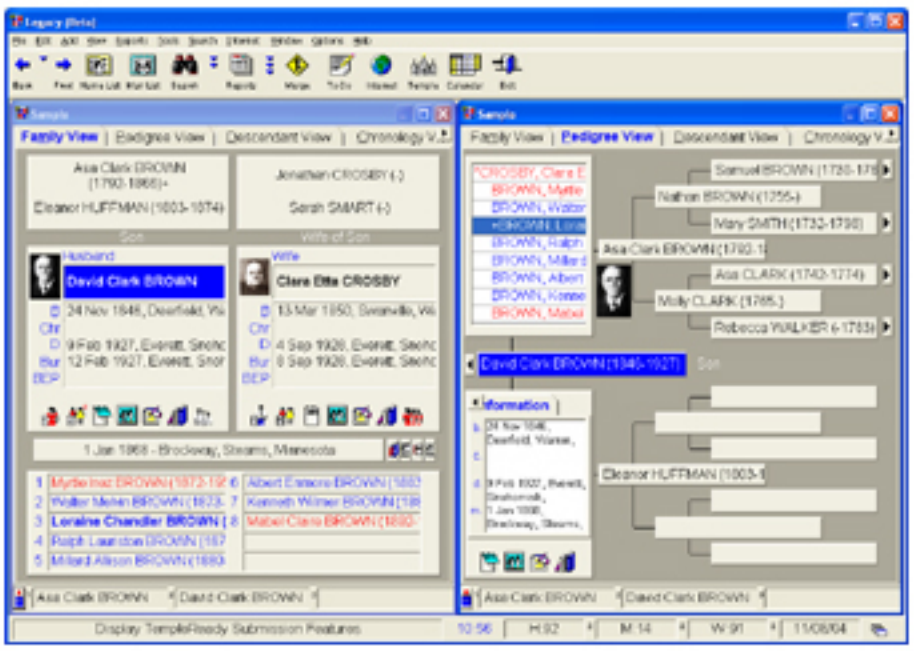
Share your legacy with over 100 charts and reports. Create a wall calendar with pictures of the grandkids. Publish an heirloom family history book for the family. Print a chronology of an ancestor - great for the book - a vital research tool for the researcher!

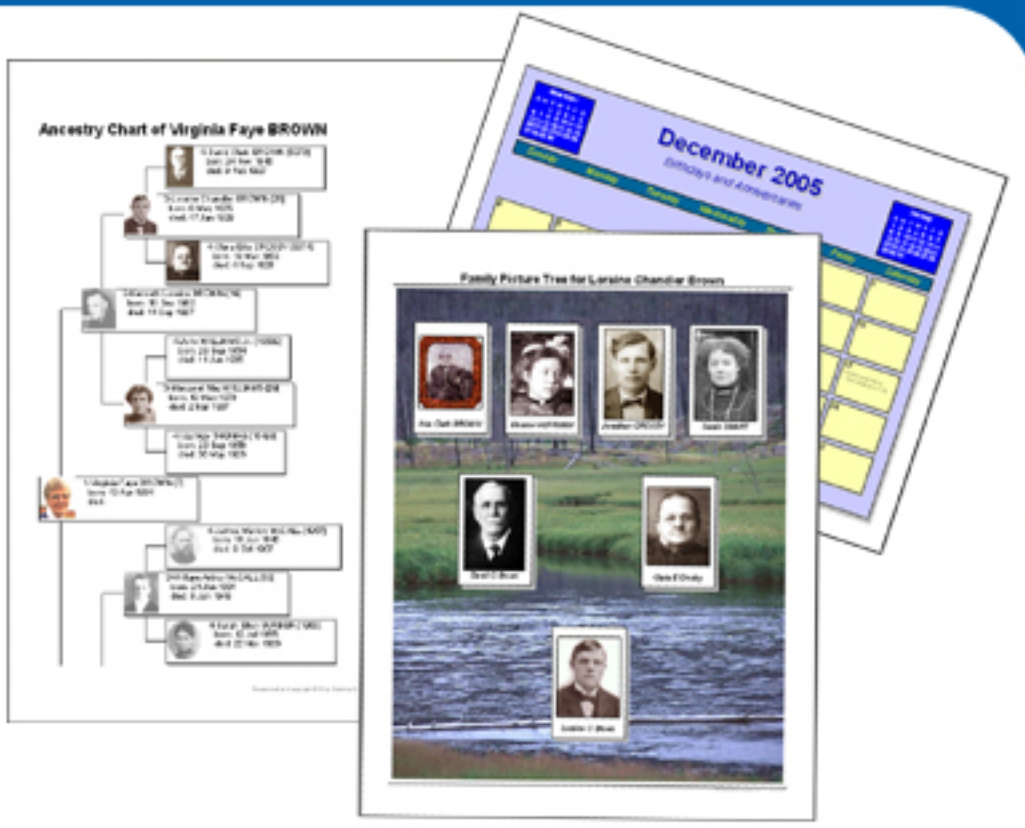
Locations

Legacy's U.S. County Verifier helps you record the correct jurisdiction for the time period. If you entered 'Deerfield, Forest County, Pennsylvania' for 1830, Legacy warns you that Forest County was not created until 1848. The historical county list will then help you determine the correct jurisdiction.

Split Screen

Easily compare 2 databases side-by-side! Or view the same database in the Family View and the Pedigree View. Drag and drop information from one side to the other. It has never been easier to combine the information from multiple files.





Pictures, Sounds, & Videos

Link an unlimited number of pictures, sounds and video to your family members. You can even create narrated slide shows! All common formats are supported, and pictures can be zoomed, lightened, darkened, sharpened and contrasted to improve photo details and appearance. Then incorporate them into your family tree for beautiful results!

Legacy is FREE!!!

That's right! Legacy's Standard Edition is free. Download it at www.LegacyFamilyTree.com. No name limits or trial periods.

Legacy's Deluxe Edition is everything that the Standard Edition is and much more. Order online or call 1-800-753-3453.

"For the beginner as well as the professional genealogist, Legacy is hard to beat for ease of use, powerful features, and reasonable price. If you want to reach your research goals in grand style, Legacy is an excellent choice."
